We defined it as a square at the time it was established, to make it easier to show on maps

Thanks. Again, though, if it is defined as 50 miles from Rose Atoll, it has to be a circle, not a square.

Or enter Rose Atoll Marine National Monument in Google - The first item on the left in either case under "Images" is a NOAA map that shows the no commercial fishing zone and the main islands - I think this covers what you need.
